

TVARA FIBER CONNECTOR HOUSING – 3U/4U UNLOADED

The 3U/4U Sliding Fiber Patch Panel is designed with a compact 3U/4U form factor that maximizes rack space while providing ample capacity for high-density fiber management. Its smooth sliding design allows quick and convenient access for installation, splicing, inspection, and maintenance without disturbing adjacent equipment. The panel offers efficient cable management, keeping fiber cables neatly organized to minimize bending, reduce strain, and prevent potential damage, thereby improving the reliability and longevity of the network. Designed to support future network expansion, it provides the flexibility to accommodate increasing fiber connectivity requirements. The organized layout also simplifies troubleshooting, enables faster moves, adds, and changes (MACs), and reduces maintenance time, making it an ideal solution for modern, scalable fiber optic network installations.

PRODUCT FEATURES

- Constructed of high-quality cold rolled closed annealed steel (CRCA) with electrostatically applied powder coat.
- Available in BLACK.
- The sliding panel fits in 3U/4U of rack space and can be mounted on 19" racks.
- Smooth sliding tray ensures ease of installation, reconfiguration and better operating environment during fiber management.
- Loaded with splice tray.
- Rear access for incoming and outgoing backbone cables.
- It can accommodate up to 72F / 96F SC & 144F / 192F LC.

BILL OF MATERIAL

Item No	Description	Part No	UoM	Qty
1	KG nuts	KNG M 6x20	Nos	4
2	Splice protection sleeve	SPS-45-2.5	Nos	150/200
3	Cable tie	CT100	Nos	10/20
4	SMH Lug	SMH-AL	Nos	2
5	Tissue Paper 10 pulls	-	Nos	2
6	PG Gland 21(min 11mm to 13mm Cable) (max 18mm to 19mm Cable)	Black -PG 21	Nos	2
